GPTcreator
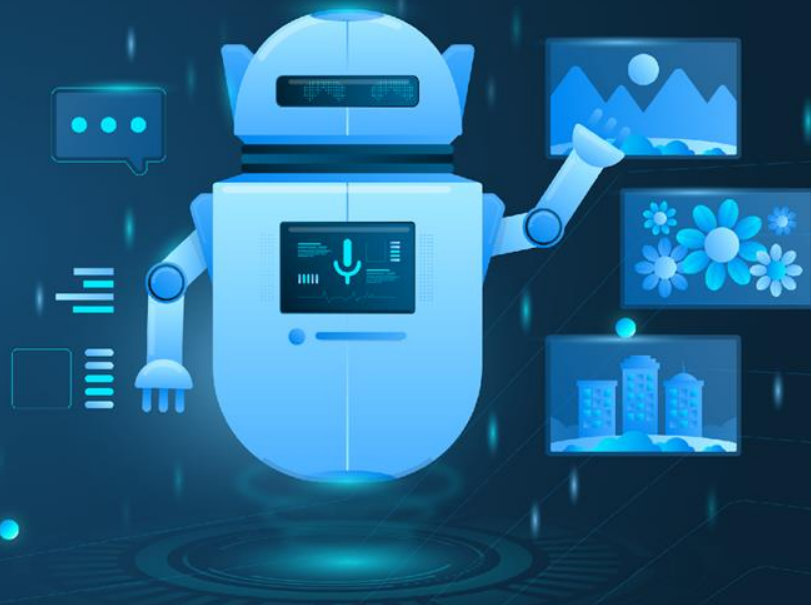

GPT CREATORS
AI ASSISTANT FOR CREATORS

*One platform to generate all AI contents & AI Voiceovers*

TABLE OF CONTENT

I. INTRODUCTION

GPT Creator redefines content creation with advanced AI technology. Users effortlessly generate text, visuals, and code using cutting-edge models like **GPT4 Turbo and DALL-E-3** in over **50 languages**. With features including an interactive **AI chat system, Speech to Text, and AI-driven voicevovers**, GPT Creator empowers users across industries to save time and unlock creative potential. Join us in shaping the future of content generation with GPT Creator!
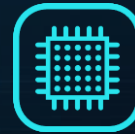

II. THE EVOLUTION OF CONTENT CREATION

Over the years, content creation has evolved from manual and labor-intensive processes to more automated and efficient methods. AI technology has played a significant role in this evolution, enabling users to generate text, images, and even code with unprecedented speed and accuracy. GPT Creator builds upon this foundation, offering a comprehensive suite of AI-driven features designed to meet the diverse needs of modern content creators.
III. KEY FEATURES AND CAPABILITIES

Text Generation
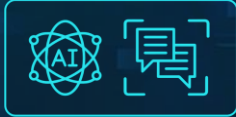

Interactive AI Chat System
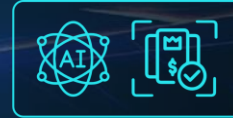

Backend Admin Panel
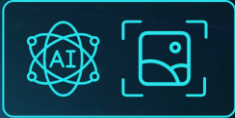

Image Generation
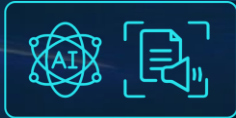

Speech to Text

Subscription Plans

AI Voiceovers

AI Code Generation

Writing Assistant

IV. USE CASES AND BENEFITS

Use Cases

- Marketing and Advertising
- Content Creation
- Software Development
- Customer Support

Benefits

- Time and Cost Savings
- Scalability
- Multilingual Support
- Enhanced Creativity

V. ROADMAP

Phase 1: Foundation

Phase 2: Launch and Enhancement

Phase 3: Growth and Expansion (Q4/2024 - 2025)

Q4/2023 Market Research and Analysis:
- ❖ Market research to identify target audience segments, competitor landscape, and emerging trends.

Q4/2023 Market Research and Analysis:
- ❖ Clearly define the vision, mission, and objectives of GPT Creator.

Q1/2024 Team Formation and Infrastructure Setup:
- ❖ Set up the necessary infrastructure, including servers, databases, and development environments

Q2-Q3/2024 Soft Launch and User Testing:
- ❖ Conduct a soft launch and gather user feedback.

Q3-Q4/2024 Iterative Development and Enhancement:
- ❖ Continuously improve and refine existing features, adding new functionalities.

Q4/2024 Scalability and Performance Optimization:
- ❖ Optimize the platform for scalability, performance, and reliability to accommodate growing user demand.

Marketing and User Acquisition:
- ❖ Develop a comprehensive marketing strategy to promote GPT Creator and attract new users. Community Building and Engagement:

- ❖ Build a vibrant community around GPT Creator, fostering collaboration, knowledge sharing, and user engagement. Partnerships and Collaboration:

- ❖ Explore strategic partnerships and collaborations with industry stakeholders, technology providers, and content creators.

VI. TOKENOMIC

Ecosystem Fund – 30%

Marketing – 10%

Burning – 24%

Liquidity & IDO– 25%

Team – 5%

Reserved – 5%

Airdrop – 1%
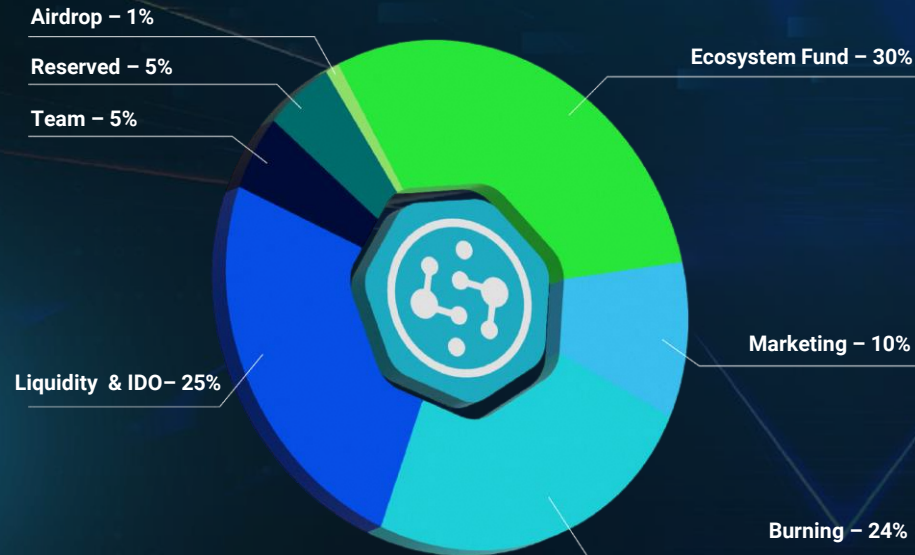

Basic Information

- Token Name: GPTCreator
- Total Supply: 100.000.000
- Token Ticker: GPTC
- Decimal: 18
- Chain: BNB Chain
- Contract address:
  0xe858b1995656c7B33cfABE9f165823e9cb712E47
- Listing Price: $0.01

VI. TOKENOMIC

Token Distribution & Release Schedule

Distribution	Ratio	Allocation	Vesting & Releasing
Airdrop	1%	1.000.000	100% TGE
Ecosystem Fund	30%	30.000.000	10% TGE, Linear Vesting in 24 months.
Marketing	10%	10.000.000	5% TGE, linear vesting in 24 months.
Burning	24%	24.000.000	0% TGE, and burning 1% every month.
Liquidity & IDO	25%	25.000.000	20% initial unlock, vesting in 12 months
Team	5%	5.000.000	0% TGE, cliff 12 month and vesting in 24 month
Reserved	5%	5.000.000	0% TGE, cliff 6 month and vesting in 6 month
TOTAL	100%	100.000.000
